

BREEDING CONTRACT

Addendum B
Shipped Semen

This addendum is part of the Breeding contract for the stallion "Maggiano" and the mare _____.

- 1. All parties agree that they have executed a breeding contract to breed the above named mare and stallion. In addition to the breeding contract, it is mutually agreed by all applicable parties that this addendum shall become part of the afore mentioned breeding contract upon signatures of applicable parties.
2. The Lewis Ranch/Stallion Owner shall ship semen collected from said stallion in an appropriate chilled semen container by overnight courier, such as Federal Express, DHL, AirNet, etc. to the address of record provided in writing by the mare owner. Semen will be shipped immediately after collection. The Lewis Ranch/Stallion Owner certifies that the semen, when collected, will be of such a degree of motility and mobility so as to be reasonably acceptable for breeding.
3. All breeding fees must be paid in full prior to the shipment of semen. Mare owner agrees to pay \$150 for chute/shipping costs if bred at The Lewis Ranch via cooled shipped semen, or \$175 if shipped elsewhere, in addition to the stud fee of \$300 agreed upon in the Breeding Contract. Checks can be made payable to Tina Lewis or The Lewis Ranch Stallion Station.
4. It is mare owner's responsibility to have a veterinarian or certified breeding technician inseminate the mare, complete all forms required, and return the forms to any respective breeding registries. It is expected that the mare owner's Veterinarian/breeding tech is aware of the mare's current breeding status and can ensure that the mare is at the proper stage of ovulation to order semen and inseminate.
5. Mare owner certifies that only the mare listed on the Breeding Contract shall be inseminated by the shipped semen of said stallion. *NOTE: If semen is used on a mare other than as stated in this contract, mare owner shall owe a second full breeding fee, and all related expenses, including chute and shipping fees to The Lewis Ranch.
6. The Lewis Ranch/Stallion Owner will make every effort to provide semen as requested. Semen availability will be governed somewhat by shipping options and number of mares booked at any given time during the breeding season. The Lewis Ranch/Stallion Owner requests 24-48 hours notice prior to collection of semen. In the instance that semen requests exceed supply, priority will be given to mares in order of booking dates. Note: Booking before January 1 also earns a discount on stud fee.
7. The mare owner agrees to comply with all APHA, AQHA or other breed association rules and regulations regarding the use of shipped semen and artificial insemination.
8. The mare owner agrees to send the appropriate copies of the Insemination Certificate to the breed association and to The Lewis Ranch Stallion Station.
9. All parties to this contract agree that the obligations of The Lewis Ranch/Stallion Owner shall be met when the shipped semen is accepted at the address of record provided by the mare owner. Acceptance shall be defined as the shipment container arriving at the address provided by the mare owner. The Lewis Ranch/Stallion Owner assumes no further responsibility for risk of loss once semen has been accepted.
